

**General Awareness Programme
on
Preventive Measures Against Dengue
21st May, 2024**

A general awareness programme on “Preventive Measures Against Dengue” was organized by Department of Environmental Education in association with Internal Quality Assurance Cell of Prasannadeb Women’s College, Jalpaiguri on 21.05.2024. The primary objective of this programme was to educate the students about dengue fever, its transmission, symptoms, prevention, and control measures.

The welcome address of this programme was delivered by the Principal Dr. Samapti Saha, emphasizing the importance of awareness and collective action against dengue. Dr. Vaskar Das, Assistant Professor, Department of Zoology, discussed about the global and local impact of dengue.

Students participated in the programme by creating informative posters on dengue prevention. They have also participated in campus cleaning to remove potential mosquito breeding places and planted trees in the campus as part of the green initiative to make the campus green.

The Dengue Awareness and Prevention Programme at Prasannadeb Women's college was a successful initiative that achieved its objectives of raising awareness and promoting preventive measures against dengue.
